Summary

I am a recent graduate with a Bachelor's degree in Computer Application and a passion for web development. I have experience working with the MERN stack (MongoDB, Express.js, React, and Node.js) and am proficient in HTML, CSS, and JavaScript. I have completed various web development projects during my studies and have a solid understanding of web development principles and best practices. I am a quick learner and am always looking to improve my skills and stay up to date with the latest trends in web development. I am excited to start my career as a web developer and am eager to work on challenging projects that will help me grow as a developer. My personal website, portfolio and github account links are provided for your reference
